Maryland Merchant Tokens Index

The Maryland Token And Medal Society, Inc.

January, 1999.

MARYLAND MERCHANT TOKENS INDEX

This compilation is an index of all the tokens listed in the Maryland Merchants Book authored by David E. Schenkman. It also includes some of the unlisted tokens that have been attributed to Maryland as of January, 1999. Following are some ground rules used in the compilation of this index.

- If both a company and individual's name appear on a token, it is listed here by the business name (for clarity, a few tokens are listed both ways).
- The word "The" has been omitted from descriptions.
- The first name of a business is used, while individuals are listed last name first.
- Tokens with only initials are listed first initial first. Thus, the token of C. A. L. will be found between Cabin John Hotel and Calverton Club.
- In determining placement of a listing in the index, punctuation has been ignored.
- When a name is in parenthesis following a name listing, it has been included to clarify the location of that token in the catalog but it does not appear on the token. For example, the index listing "Uncle Billy's (N. B. Novelty Co.)" indicates that the token is also listed in the catalog as N. B. Novelty Co.
- When the town name is in parenthesis, it means the town name does not appear on the token.
- An asterisk sign (**) following the name of the token indicates that it is "unlisted" in the Maryland Merchant Tokens book.
